It is estimated that on yesterday there were upproximalely Tow Thonsand Five hundred mea in this efty and county between the ages of eighteeen and forly-five registered for military service. When the onestionnaires are united out, which will probably be next week, it is going to be an enormous fisk to have them filled out properly. THEREFORE, I. R. B. ADAIR, acting as Clerk of the Mason Conuly Bur, want to arge upon all men in this City and County who recelve questionnaires, to read them over very earefully several limes befare bringing them in lo be filled out In order that they may be able to answer quickly and intelligently ull ancetlons propounded therein. I desire further to call the registrant's attention to the "KEY LIST OF OC-CUPATION" which will be malled with each questionnaire. Nearly every occupation that one can think of Is in this KEY LIST OF OCCUPA-TIONS and has a number to identify II. This number aimst be placed in the questionnaire, and if the registrant will examine this KEY carefully and mark his occupation, and its number It will save considerable lime and trouble when same is filled onl. I want lo further eall atlention to the registrant who is expecting to claim exemptions on account of dependents to bring with him such dependents when he comes to have his questionnaire filled out in order that they may sign sanic,

R. B. ADAIR, Clerk of Mason County Har.

DESERTER IS ARRESTED AT GOV-ERNMENT DAM

Negro Arrested at Dam Just East of the City Confesses That He Ran Away From Camp Humphreys . and Will He Taken to

Ft. Themas Tomorrow.

Special Officer John Mitchell at the government dam just east of the city this afternoon arrested n strange nsgro and brought him before the local Exemption Board for an investigation. The negro proved to be a deserter rom a Virginia camp and confessed o the board.

The negro landed at the dsm last night having come in on a freight train. Officer Mitchell thought something strange as the negro wore an army shirt. He was taken in custody and questioned about his registration card He could show neither a registration card or a dischargs from the army and this afternoon he was

brought before the Exemption Board. When anastioned by members of the osrd, the negro who gave his name as Alonzo Gerner and his home a Virginia, made a clean confession that he was a descrice from the United States Army. He said he left the camp during the intter part of August without leave from his officers and that he had intended to make a get away from the army.

He was locked in the county jail where he will be kept until tomorrow norning and Officer Mitchell will deliver him to the Federal authorities at Fort Thomss.

2,094 MEN ARE REGISTERED IN MASON COUNTY

County's Registration Goes Over State Chlef's Eslimate - 626 Men Are Registered in the Cily-Dicterich Is Banacr Precinet.

Two thousand and ninety-four beween the ages of 18 and 45 inclusive listed themselves for military service in the special army registration held in Mason county Thursday. Of this number 626 were registered in the city of Mayaville.

Dieterich precinct which takes in the government dam, was the banner precinct of the county listing a total of 142 men while Plumville listed the smallest number-52.

Registration day passed off very quietly in Maysville and Msson county. The registrars were on the job early with all of their equipment and before 7 o'clock they had registered some few men who were anxlous to get their green card and get to work early in the morning.

During the day the fact that the election polls were open and that men were anxlous to see who registered, drew the usual number of men about the registration booths and none of the registrars incked for company. It was one of the biggest registrations ever held in Mason county and as one fellow said as he signed his name to his card, 'Everybody is voting for the United States today."

There was a general display of the American flag all over the city but there was no music and not as much excitement as attended the first milltary registration when men between the ages of 21 and 31 registered for service.

At the request of the members of the Mason County Board, the precinct headquarters in the government building all day with their official reports and their cards which will be indexed and pisced in the files of the board for future reference. Every registrar · reported his experiences while he was waiting for the board members to check up his cards and compare them with his final report and some of them had very interesting experiencea during the day. In most every precinct registrars reported that many men had registered who they had thought far beyond the draft ages but in no case was any known slacker reported to the board for investigation. It is more than likely, however, that during the next few days aome may be reported who have failed to list themselves for various reasons and the officials will at once he nsked to assist in running to the ground the truth of these expected re-

The enemy is blowing up ammunition dumps at Hattonville - in the middle of the pocket.

Latest reports of territory taken by the Americans indicate the neck of the sallent has been asrrowed to less than six miles. If two German divisions still remain in the pocket their escape is decidedly improbable. Despatches from the front report prisoners taken by the Americans now total 9500.

The Americana are making progress so rapidly the situation is changing momentarily.

They are reported to have captured ligneulles-in the center of the sallent, seven mlles northwest of St. Bnussant, where the offensive hit the German line-and Beney-four and a half miles north and slightly east of St. Baussant.

The town of Hendicourt is also reorted to have fallen.

The attack on the western side of the pocket has run into more difficult country and more serious resistance but the Americans have advanced there to a depth of three miles.

German ammunition dnmps also are heing blown up at Dampvitoux, slightly north of the netnal battle zone.

With the Americans on the Metz Front, September 13—The American advance is continuing today on boi. sides of the St. Minlel salient, between the Meuse and the Mosclle rivers. Additional prisoners constantly are being renorted.

Rain is falling at intervals. The Germans are baving great diffiulty in removing artillery from the

Pogne's Distillery May He Taken Over lly Large Phlladelphia Yeasl Plant Which Wants lo Lo-

cale in the South.

Several days ago the Maysville Chamber of Commerce received a communication from Myron C. Fagan, of Chlcago, in which he said that he had been informed that Maysville had several distillery plants that had been disearded and that he had n concern that wanted to locate at some piace In the South and in their business could very nicely use a plant which had been discarded by a distillery.

The Chicago man said that the firm he was corresponding about was now iocated in Phliadelphia and that their business had outgrown their plant and they wanted to branch out and either establish one large factory in the South or two sinsiler plans. He said that the firm of which he wrote had been doing a splendid business and that their banker would give them a first-class reputation and testify as

to their husiness. Secretary Dodds, of the Chamber of Trustee, George Mitchell, Bankrupt. chine is new and of a standard maks. Commerce at once took the matter up with Mr. J. C. Rogers, of the Limestone distilicry and Mr. Thomas F. Pogue, of Ciucinnati, representing the Pogne distillery. Mr. Rogers was of the opinion that his plant being off the rallroad could not be considered but Mr. Pogne took the matter up at once and there is every reason to believe that Maysville will secure a new plant.

Mr. Pogne's letter just received by Sceretary Dodds says: Dear Sir:

Your appreciated courtesy of August 21st was delayed in being answered owing to my absence from the city. Have taken up the matter direct and trust I may be able to interest Mr.

With due appreciation of your interest in bringing business concerns to Maysville, I remain.

Very truly yours, THOS. F. POGUE.

The local organization is expecting to hear from Mr. Fagan in Chicago within the next few days. They will invite his concern to send representatives to Maysville to inspect the local distillery and it is more than likely that Mnysvilic will get the new plant in a short time.

YES, WE ARE CONSERVING

For months the newspapers of America have been preaching agriculture, one for labor, and one food conservation. "Close up the garbage enus," has been an oft- for other occupations. The agriculrepeated slogan and at last has become a popular one. Now the American people have adopted it, so heartily in fact, that the garbage production plants of the country have sturted to complain, asserting that nuless there is more garbage the government will face but may, when invited, attend its a severe shortage of glycerine, the latter being one of the garbage ean products.

And glycerine is a highly important element in the manufacture of munitions. Of course, the complaint is intended to be only half serions. Donbtless the government will be able to devise some other means of obtaining enough glycerine to meet its requirements. but the cry of the garbage reduction men is most interesting in that it proves that food conservation in this country has passed from the fad stage. It is an actuality and it is increasing rather than waning.-Dayton Herald.

FEWER SHOWS THIS YEAR

The word from New York and Chicago is that there will be fewer big road shows the coming winter than ever before in the history of the country, says the Dayton Hevald. This is due to several ture. This will make it possible to causes. First, the men are not available, and for that matter, not so have necessary workers transferred many women are to be had as formerly, either. The men in large numbers have gone to war. Others will be doing essential work. Many of the women who previously have been in the chornses likewise are doing some form of war work, large numbers of them being employed in munitions plants, where they are making quite as much money as they did in the chorness and where the work is less strennons. In the second place the cost of carrying a large company about the country is now almost prohibitive, it being estimated that the expense is about twice as heavy as in other years. Still another real taining whether persons entitled to son is the war tax on theater tickets. However, there will be shows, deferred classification have neurally but they will be presented by smaller companies. May we not hope, incidentally, that they also will be better?

INTO DEFERRED CLASSIFICATION

Special Care is to lie Taken to Defer Agricultural Workers.

Washington, D. C., September 13-Inder the rules of the War Departlag the district boards in regard to pations as to waive deferment. form-labor requirements in order that necessary food production ma be maintained, snys a statement issued The statement continues:

In the new draft the district boards are charged with the duty of putting into deferred classes those persons who are more likely to further the war by remaining in elvilian occupations than by entering the Army. Aceordingly, three advisers are to be selected for each district board-one for board upon the recommendation of the Secretary of Agriculture. The adsisers are not members of the board meetlngs.

How Agricultural Adviser Will Ald The lutles of the agricultural adiser will be to furnish to the board facts relative to farm-labor requirenents, not only of his own district, but of the whole country. He should be the repository of all facts having reintion to the deferment of agricultural workers, whether these be neeessary farm laborers, managers or operators. He will be expected to advise the district boards as to a shortage or surplus of necessary farm as for the entire Nation. Such information will be supplied to the advisers by the Department of Agricuifrom districts in which they may not be necessary to other districts in

which they are sorely needed. The adviser may also concern himseif with Individual eases that come before the district board. He will have the right, under certain condilons, to examine the questionnaires local board for the purpose of aseerelaimed it. In ease he finds the names of such registrants he may file for them a claim for deferred classifiention with the district board, which, in turn, mag require the local board to eertify the questlounnire and record of any such registrants for considerntion. Reasonable time will be given tion and supplying the affidavits required. If a local board determines to consider a case for deferred classivcation because a registrant is engaged In a necessary occupation, notwitinstanding no claim for deferred classification on that ground has been minde, it shall endurse the recommendation on the questionneire of the registrant and forward It to the distriet board having jurisdiction. The the case and proceed to classify the registrant, notwithstanding the fact that no elaint for deferred einssification by or in respect of the registrant has been made.

Chilias in Hebalf of Necessary Employees

A further duty with which the adviser ls charged is to confer with em ployers of necessary farm workers. and to instruct them as to their right under the regulatiyons to flie n spect of any registrant who has falled or refused to file a claim for deferred classification in his own behalf. This. apparent injustice of placing many registrants in Class 1 is often due to the fact that employers have failed to make elalms for deferred elassification on behalf of necessary workers It is to avoid a repetition of this tronble that farmers should see that all of heir necessary employees, whether sons or other lahorers, of the draft age have made for them just cinima for deferred elassification.

One Important explanation is made n the new Selective Servies Regulations in convection with the expression "skilled farm laborer." The questionnalre providss deferred eiassification for the "necessary skilled farm luborer in necessary agriculture enterprise". The new regulations provide that in Ciass II shall bo placed any registrant found to be engaged in a "necessary" agricultural eulerprise, and found to be necessary to such enterprice in the eapacity of a farm laborer-"especially fitted for the work in which he is eagaged." This quoted phrase constitutes un explanation of what is meant by "akilled" as applied to farm laborer. The expression will anke easlar the determination of the status of many registrants.

War Service in Right Place The purpose in the appointing of

ean do most to help win the war These advisers will be, able to help greatly the district boards to keep in agriculture the necessary workers. These workers, whatever may be their Inellnation to snter military service, should stand ready to serve in any eapacity in which they can contribute most townrd a speedy ending of the

war. In order that this may be done a frank statement sbould, in ench ease, be made to the boards. It is be-·lieved that it will frequently require ment for executing the new draft law, and much conrage on the part of many special provision is made for inform- men to remain in their elvilian occu-

This effort to keep men in indus try, rather than to send them to the eamps and the trenches, should not be by the Department of Agriculture, nbused so as to permit the slacker to escape military duty. The necessities for raising an army nre paramount'. Every man that enn be spared will be needed and needed badly to bring the enemy to his senses. The adviser should be assisted in every possible way by every legitlmate agritultural interest to find the men that ean be apared for military duty, but also to keep those that are essential to the maintenance of a proper food

Washington, September 12 - The Republican Publicity Association, their newspapers, are usking "Why through its President, Hon. Jonathan | have we no powerful allies?" Hourne, Jr., today gave out the following statement from its Washing- Even this people, held down by their ton lieadquarters:

"We must not get the notion that the winning of the war is the only problem before this country. That is the most important problem-the one to which all others must be subordlnated. But there are numerous other apply ourselves if we are to continue a prosperous, free and progressive people. In our efforts not to irritate the Boisheviki of Russia, we must not set aside law and order in America. In our passion for government control of everything we must not stiffe individual initiative. In our desire to supress traitors we must not put gag in the mouths of patriots in our zeal to win the war, we must not send porous raineoats to the soldiers in the trenches or let men of actual or pretended influence in high places get unconscionable fees for securing government contrnets for their eilents. In our willingness to pay large taxes for support of the war we must not tax legitimate industry to death "Win the war" is our first but not our only slogan. The mun who sets out on one undertaking and turns n bilind eye and a deaf ear to everything else is doomed to meet misfortune."

FUIID ADMINISTRATION INSPEC-TORS ARE ADDIT

It is understood that within the past couple of days there have been severni inspectors from the Federal Food Administration in Mnysviile and Mason county. EVANGELIST FOR WAR WORKERS

"Illly Sunday" Methods Stimulate Production in Southern Factory and Keep Men on Job.

l'ncle Sam now has nn evangelist duly enrolled in the great army of war workers. Moreover, the evangelist has been employed not to perform office duties or military service, bul to stick to his old job of preaching and exhorting. His name is Luther B. Bridges, and his success may open a new field of endeavor for mnny a mute, unknown Biliy Sunday.

Mr. Bridges is conducting a campaign in the South against the powers of evil in the form of labor turnovers. He is holding industrial revivals that cause many a discontented r restiess worker to repent of the sin of wanting to quit his job. Every day he preaches the sort of patriotism that expresses itself in the greatest efficiency, the patriotism that keeps In mind always the fact that the man in the strop is making it possible for the man in the Army to march to vie-

The Government found Mr. Bridges through the Taliahassee Power Co. at Badin, N. C., which is a subsidiary of the Ainminum Co. of America, and is engaged in producing war materinis. The company had been severely handleapped by a labor turnover that nmounted to nearly 600 per eent a vear. in its aluminum section, where 380 men are employed in thre eight hour shifts, it had become virtunity impossible to maintain the shifts over the week-ends. The eessation or slackening of the work not only reduced production but caused deterioration in the quality of the metal.

J. E. S. Thorpe, manager of the plant, heard that Mr. Bridges had heen extraordinarily successful in the third Liberty loan campaign and the second Red Cross drive. He suggest ed that the evangelist should try his luck in arousing the patriotism of the workers. Mr. Bridges started meetings in the local theater. He went to the plant and as the shifts changed delivered little sermons brief and convincing, to the men. He talked practical patriotism, he appealed to employees, he made them understand that their part in making munitions was as important as the task of the soldiers who used the war ma-

terial. The industrial revival insted three weeks, and each Saturday there was a blank in the place where the number that dropped out was usually recorded. It was time for the evangelist to move on to a place whore he was more needed, and then it happened that Unele Sam found out that there was plenty of chanco for Mr. Bridges to help win the war by enlisting in the United States Employment Service, Department of Lubor.

Friendship means more and at the same time less than any other word in the English language.

The local business men realize the Importance of the organization to their business and to the general welfare of the elty and they are therefore displaying this keen interest.

The team captains who will have charge of the crews of business mon who will cali on evory business and professional man in the city during the eampaign say that they have things mapped out earefully and they are feeling eertain that their drive will meet with great success in adding all of the old and many new members to the Chamber'a roster of members.

The Chamber of Commerce has eslablished Itself in the elty. It has many times displayed its worth to the business men and to the city. In every movement this organization can be ealled upon and it has never yet falled to give hearty support to every movement for the betterment of conditions in the city and county.

During the war the organization nas displayed its great worth. It is an organization upon which everyone can call for help to put over any drive for any war measure. The Chamber of Commerce has had an active part in every drive that has been put on lin Maysville and much credit for the splendld showing that Maysville has always made in every one of the drives can be given to this organiza-

The membership drive starting Monday is different from former mem bershlp drives in that the business of professional men are asked this time to fujin for but one year. They are asked, however, to pay their yearly dues at the tlare of joining so that the organization can do away with a large amount of trouble and expense in collecting the dnes such as they have experienced in the past few years.

The drive begins with a banquet at the Beechwood Park Monday evening and it will last during the entire week when every business man in the elty will be given an opportunity to join and heip boost Maysvilie.

SPLENDID PRAYER SERVICE

The prayer meeting services at the Third Street M. E. Church have taken on new life within the last few weeks. While walting for their new postor n prayer meeting committee is inviting leading Christian workers of other ister yesterday, came home from the churches each week to conduct the meetings. Last evening it was the register in their home city. A num- privilege of the church to have Mr. James B. Wood lead the service. In his talk he gave a synopsis of tho great sermons and addresses he heard while attending Winona Assembly. It was one of the most instructive, enlightening and helpful talks heard in this church in many months. Mr. Wood has the happy faculty of grasplng the many good things he hears and then being able to impart them insuch an Interesting way to others. It goes without saying that every one of the large prayer meeting crowd was happy at the opportunity of being in the service and hearing Mr. Wood's talk Those who are not attending these services are missing a great

FOR SOLDIERS' MASKS

It has been learned that poach seeds contain the accessary mineral to keep out the poison gas thrown inte the Allled trenches by the Germans and all over the country the people have been ealled upon by the Red Cross to save their peach seeds this year that they may be used in fur-nishing the necessary mineral for the gas masks used by our soldiers on the

In many cities barrels and boxes have been stationed at prominent street corners over which are placed large signs asking the people to save their peach seeds and deposit them in these containers which are turned over to the American Red Cross.

A number of local people led by Councilman George Dodsen have reached the conclusion that Maysyllle and Mnson county should have a share hi this war work which costs no one except for a little trouble in saving the seeds and bringing them to the barrels.

Barrels have been secured and signs are being prepared. It is hoped that the committee in charge will have things in such shape that the containers can be stationed about at the prominent street corners in the elty on next Monday.

The country people can have a part In this war work as well and they are ail asked to save their peach seeds and bring them to Maysville with them when they come to town. The boxes and barrels will be emptied dally and the gathered of seeds will be forwarded to the proper authori-

ADVISORY HOARD WANTS VOLUN-TEERS

On account of the large number of men registering for military service on Thorsday and the large number of questionnaires that will have to be filled out, the Legal Advisory Board of the county will have to have so: cral volunteers to assist them in the work. All who desire to volunteer for this work should hand their names to Mr. W. W. Ball, Jr., chairman of the County Council of National Defense at the State National Bank. A meeting of these volunteers is being planned for Mouday evening at the Councli Chamber.
